SUMMARY

Frontend engineer with 2 years of experience shipping 7 production React applications (Logistics, CRM, e-commerce, marketplace). I own the full frontend cycle: gathering client requirements, implementing designs, integrating REST APIs with backend teams, and deploying. Published a React Native app on Google Play. Currently learning testing (Jest, React Testing Library) and applying it to my latest project.

SKILLS

Core: JavaScript (ES6+), TypeScript, React.js, HTML5, CSS3

State & Data: React Query (TanStack Query), Redux, React Context, REST APIs

UI: Tailwind CSS, Bootstrap, Responsive Design, Web Accessibility

Mobile: React Native (Expo)

Tools: Git, GitHub, Postman, basic MySQL, cPanel, terminal

PROFESSIONAL EXPERIENCE

Frontend Engineer | OFX (Out Of The Box), Maadi, Cairo Oct 2024 – Present

- Own frontend delivery for client and internal projects (ERP, CRM, e-commerce, marketplace): delivered 5 production applications and currently building 1 more.
- Gather requirements directly from clients and turn them into scoped features, user flows, and API requirements, working with UI/UX designers and backend developers.
- Build reusable components and custom hooks with React, Tailwind CSS, and TypeScript; manage server data with React Query and app state with Redux and Context.
- Handle client feedback and revisions through release, deployment, and handover with the backend team.

DEPI React Web Developer Scholarship | Ministry of Communications and IT Jun 2024 – Oct 2024

- Built a full e-commerce website as part of a team.
- Managed the GitHub branching workflow and handled merges between team members' branches.

SELECTED PROJECTS

SUNNAH: Remembrances App & Admin Dashboard (client project) 2026 – In progress

React.js, React Native, TypeScript, React Query, Tailwind CSS

- Analyzed the idea, wrote the SRS (features, functional and non-functional requirements), and designed the UI/UX for the app and the admin dashboard.
- Building the admin dashboard (sections, subsections, content items) and the mobile app, including a personal remembrances feature.

Enterprise CRM & Agency Management System (OFX internal platform) Jun 2026 – Sep 2026

React.js, Tailwind CSS, React Query, React Context

- Built a CRM and operations platform: client leads and follow-ups, contract creation, sales tracking, and an owner view of sales per employee, top performers, and contract/service progress.
- Built financial dashboards (payroll configuration, contract tracking, wallet balances) and a multi-tier commission workflow based on performance thresholds for sales.
- Used by ~20 employees, managing 400+ leads, 80+ active clients, and 150+ contracts to date.

AL-RAYA: Logistics & Supply Chain ERP Dec 2025 – Apr 2026

React.js, TypeScript, Tailwind CSS, React Query, React Context

- Built import/export work-order workflows for account managers, branch managers, and drivers: driver and vehicle assignment, and dynamic waybill generation per vehicle or container.
- Implemented financial workflows (client statements, company treasury, receipts and transactions) and client and vehicle reports.

OFX QR: Dynamic QR Branding & Analytics Platform Jul 2025 – Aug 2025

React.js, Tailwind CSS, JavaScript (ES6+) | ofx-qr.com

- Built a subscription platform where users enter their brand identity (logo, details, branches) and get a branded landing page plus a printable QR code.
- Built the owner dashboard (subscriptions) and a user analytics dashboard showing QR scan counts and geographic traffic.

AL-JISR: Art Marketplace & Event Booking (Saudi Arabia)

Apr 2025 – Jul 2025

React.js, Redux, Tailwind CSS | aljisralfanni.com

- Built a three-sided marketplace for artists, art buyers, and event organizers: public website, artist dashboard, and admin dashboard.
- Implemented online exhibitions, artwork purchasing flows, and marketplace browsing.

EL-WKALA: B2B Wholesale Ordering App & Dashboard

Dec 2024 – May 2025

React Native (Expo), React.js, Redux, Tailwind CSS | [Live on Google Play](#)

- Built the merchant mobile app (supermarket ordering) and a web admin dashboard to track orders, assigned delivery reps, and delivery status.
- Implemented tiered wholesale pricing, bulk product browsing, and high-volume checkout.
- Published on Google Play with 100+ downloads.

EL-SHOLQAMI: Restaurant Online Ordering & Admin Dashboard (Freelance)

Mar 2025 – Mar 2026

React.js, Tailwind CSS, React Query | sholqamy.com

- Built the ordering website and admin dashboard for a well-known restaurant brand. Used browser geolocation to route each customer to the nearest branch, with its own menu, pricing, and delivery.
- Built admin workflows for categories, products, branch-specific pricing, orders, order invoices, and order tracking.

DPO News: Accessible News Platform (Freelance)

2024

React.js | *site currently offline*

- Built a content dashboard (news, ads, users) and accessibility features for readers with disabilities: font-size scaling and light/dark mode.

EDUCATION

B.Sc. Computer Science & Artificial Intelligence | Helwan University

2020 – 2024

EXTRA-CURRICULAR ACTIVITIES

- IT Head, SCCI 2023: led the tech committee, trained 12 members on frontend technologies, and delivered the organization's official [website](#).
- IT Member, SCCI 2022: awarded Best Member for technical contributions.
